STORMTECH® Fabric Technology

H2XTREME

WATERPROOF/BREATHABLE.

Ultimate weather protection through advanced waterproof/breathable technology—perfect to keep moisture at bay, inside and out.

H2X DRY

MOISTURE MANAGEMENT

Next-to-skin climate control with moisture management technology to regulate your core.

FEATHERFREE

THERMAL SHELL

Highly efficient and highly compressible synthetic down alternative—maximum warmth in extreme cold.

PFC-FREE DWR

The PFC-Free DWR (Durable Water Repellent) technology is a polymer coating added to outerwear to provide water-resistant protection.

Our Pure Earth™ collection includes products made with organic materials, or with recycled and regenerated materials created from post-consumer plastic waste found in the oceans and landfill.

Polygiene®
STAYS FRESH

Polygiene® makes your products stay fresh, which means that you can enjoy fresh-all-day confidence, as well as wear your products more and wash them less. Saving you time, water and waste – and not least, the product itself.

BCI provides training & certification to cotton farmers regarding: water efficiency, natural habitat preservation, reduction of harmful chemicals and respecting the rights of workers. By following these principles, Better Cotton Farmers produce cotton in a way that is better for themselves, their communities and the environment.

STORMTECH UPF Protective products are designed with engineered fabrics to provide sun protection to the wearer as well as extra comfort and coolness.

5 YEAR WARRANTY

STORMTECH proudly guarantees the quality, craftsmanship, and performance of all our products. We are committed to offering the finest products and service available and take the concerns of our customers seriously. It is your valued input that allows us to monitor product specifications and make improvements to the products we offer.

Sustainable Sourcing Practices

Sustainable practices are ever evolving. We are committed to minimizing our environmental impact and enhancing sustainable practices through responsible design, sourcing, and daily business operations.

1. PRODUCT BUILT TO LAST

STORMTECH creates timeless, high-quality products designed to extend product life and minimize environmental impact. We backup our commitment to quality workmanship with a 5 year warranty, and have built out a sustainable product care program to extend product life and performance.

2. RESPONSIBLE SOURCING

Sustainable sourcing is STORMTECH's key priority. Our supply chain is built on strong, transparent, and trusted business partnerships, focused on transparency, traceability, and zero waste at all stages. We work with compliance-certified mills, factories and supply partners, ensuring the sustainability of both social and environmental practices.

3. INCREASED USE OF RECYCLED CONTENT

We seek out recycled content in our daily business operations and are introducing recycled content into new product developments. Exclusive material technologies and recycled polyester will feature prominently in future seasons.

4. PROTECTING OUR OCEANS

STORMTECH is working towards zero impact from fiber fragmentation from textiles to the natural environment by 2030 and to reduce the amount of microfibers and microplastics contributing to water pollution. Stronger, more durable polyester fleece standards can significantly reduce the amount of microfiber fragmentation in accordance with the FibeRdex® Fiber Releasing Index.

5. PROTECTING OUR FORESTS

STORMTECH is committed to the Forest Stewardship Council (FSC) of sustainable sourcing of wood-based fibers, cellulosic fabrics, and paper products in a way that addresses the major environmental impacts associated with deforestation and forest degradation. All hang tags, cartons, and packaging are sourced from Forest Stewardship Council (FSC) certified forest, recycled content, or other controlled wood sources.

6. PRIORITIZING ANIMAL WELFARE

All STORMTECH products are feather-free and fur-free. Our Animal Derived Materials policy further outlines the restrictions on use of materials sourced from endangered animal habitats. Our guiding principles are the five freedoms of animal welfare as underlined by the World Organization for Animal Health <https://www.oie.int/animal-welfare/>

FEATHERFREE
THERMAL SHELL

7. INCREASED USE OF BIODEGRADABLE MATERIALS

Starting with Spring 2022 new styles, all our products are packed in sustainable materials including Oxo-biodegradable bags and FSC® certified cartons. We are proud to soon be taking the next step with the introduction of biodegradable packaging.
